

Nick DiSpirito

www.cakespecialty.net

Cake Specialty, Inc., located in Hawthorne, NJ has been family owned for four generations and started in 1919. They are a wholesale and retail establishment producing high-end *cakes, cookies, and pastries* for restaurants, caterers, and country clubs, as well as for the general public in the NY Metro area.

Nick is the fourth generation in the family business, along with his dad and two brothers, Joe and Mike, servicing customers in the tri-state area. His passion is creating unique tiered cakes for weddings and other functions. He has created cakes for Cher, Mercedes Benz USA, and the Today Show. He finds the more intricate the design the more he enjoys doing it and seeing smiling faces on happy customers.

He takes pride in designing cakes to each customer's specifications by asking them what ideas they feel should be incorporated and drawing a sketch to the approval of the customer.

He is a member of ICES, Baker's Dozen East, the New Jersey Confectionary Guild, and The Roundtable of Food Professionals-NYC. Nick has a degree in Fine Arts, with clay sculpture and pottery being his favorites, which shows in his cake decorating, using frosting instead of clay.
